

Exploraus's Home Learning Challenges

Explorasaurus is curious and uses all her senses to explore the world around her. She asks questions to find things out, seeks challenge and engages in new experiences. She engages in imaginative play.

We keep moving
forward,
opening new doors
&
doing new things,
because we're
curious
&
curiosity
keeps leading us
down new paths.

Walt Disney

I HAVE NO
SPECIAL
TALENTS.

I AM ONLY
*passionately
curious*

Albert Einstein

Be an Explorer

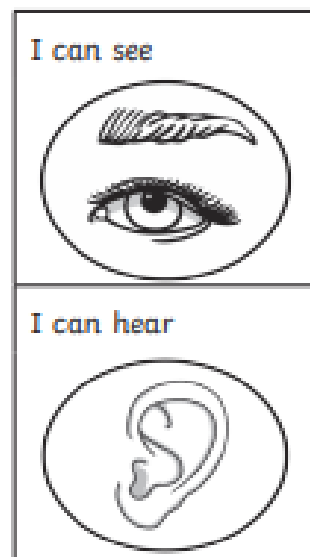

Being outdoors there is so much to spark children's curiosity.

Why not make some toilet roll tube binoculars or listening ears to help focus your child's attention?

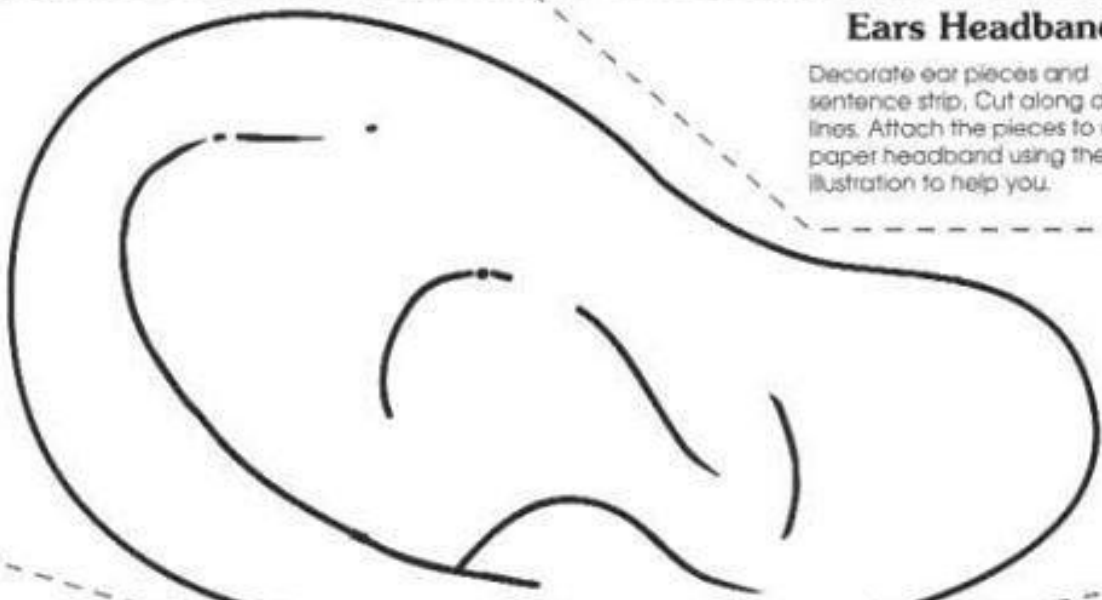

What can we see?
What can we hear?

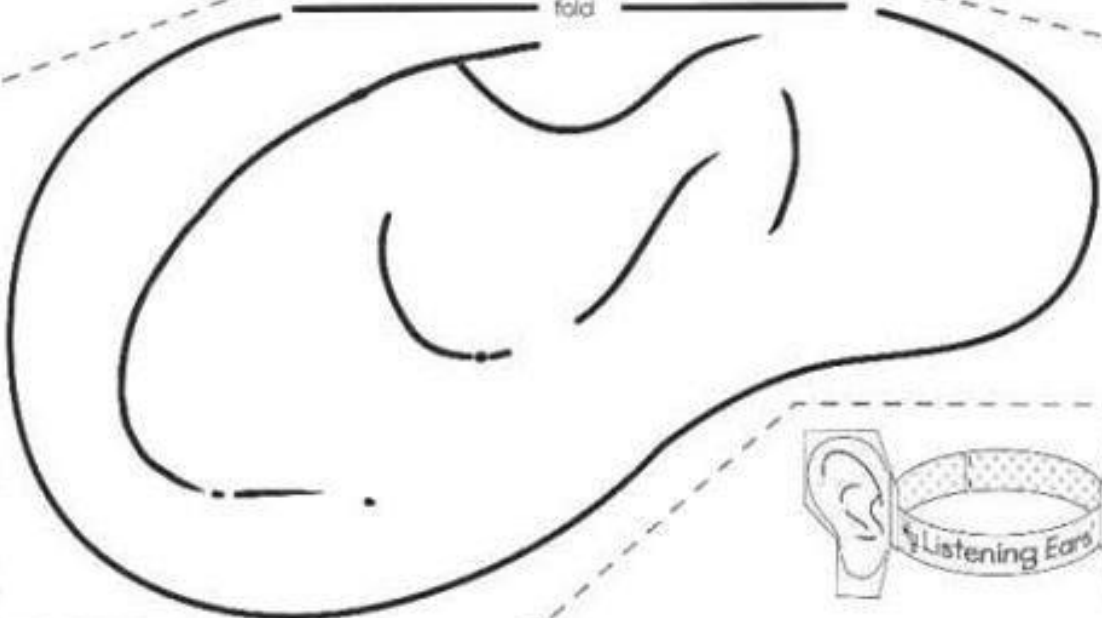

My Listening Ears!

Ears Headband

Decorate ear pieces and sentence strip. Cut along dotted lines. Attach the pieces to a paper headband using the illustration to help you.

My Five Senses Scavenger Hunt

Something smooth

Something rough

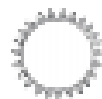

Something that makes a noise

Something round

Something yellow

Something that came from a plant

Something that has a smell

Something long

Something man-made

Something soft

Something you can eat

Something red

Mini Me Imaginative Play

Imaginative play is a great way of children exploring new experiences through 'pretend' play.

Why not make some puppets with your child of them and some of their friends or family. You could print out photos or draw some pictures and cut them out.

Start by acting out some real experiences like having breakfast or going for a walk. Then see where your imagination takes you, maybe you could go on an adventure.

Melody

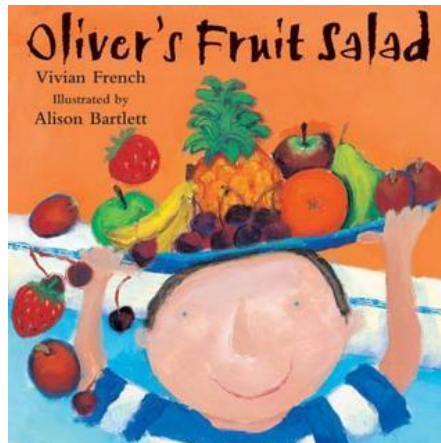

When Melody listens to classical music her incredible imagination takes her on exciting adventures. Listen to the music and stories with Melody.

Trying New Foods

The best way to get children to try new foods is by getting them to help with cooking or preparations. Simple food art can also help.

If you are relaxed then your child won't feel pressured and can make their own choices about their likes and dislikes.

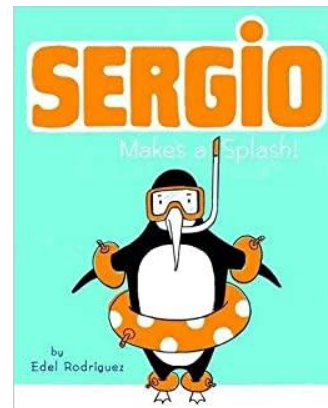

Give it a try.
You might really like it.
